

MAX ATF[®]

FULL SYNTHETIC MULTI-VEHICLE HIGH PERFORMANCE AUTOMATIC TRANSMISSION FLUID

THE SYNTHETIC EXPERT

Royal Purple[®] Max ATF is a full synthetic, multi-vehicle, high performance, long life, automatic transmission fluid. Max ATF meets the viscosity and performance requirements of late model automatic transmission fluid specifications.

SUPERIOR SYNTHETIC PERFORMANCE FEATURES AND BENEFITS

- Global OEM coverage- suitable for use in 99.9% of all light-duty planetary gear transmissions on the road today
- Delivers step-out performance proven in bench and/or field trials, in millions of transmissions currently on the road.
- Special blend of additives deliver competitive advantages:
 - Maximizes fuel economy
 - Smoother shifting
 - Dramatically reduces heat and wear, extending transmission life
 - Exceptional Anti-Shudder protection
 - Greater torque hold capacity to prevent clutch slippage
 - Also compatible in hybrid vehicles
- Best performance and protection is had with a complete fluid change to Max ATF, but Max ATF is completely compatible with OEM transmission fluid specifications, so partial fluid changes and fluid level top-off are recommended as well.

AVAILABLE PACKAGING

1-quart bottles / 6-gallon Bag-in-Box / 5-gallon pails

Max ATF is recommended in vehicles requiring a broad range of automatic transmission fluids.

Scan here for complete list of applications and for additional product information.

Max ATF is not suitable for use in CVTs, DCTs, or automatic transmissions that specify the use of Ford Type F ATF. For additional specs this product is not recommended for, please scan the QR code.
